Food Theft

Food theft from the Culinary is a major problem for the Institution. It impacts our ability to ensure adequate portions of the published menu are available. It also jeopardizes the health of individuals taking food that is perishable and not being properly stored or cooked. It also has a significant effect on our ability to work within our food service budget.

This notice constitutes a direct order that you are not to take any food items from the Kitchen other than uncut fruit in the quantity served. (Per your Inmate Handbook). The following plan was designed to address this issue in a reasonable, consistent way.

1. If an inmate is caught stealing or attempting to steal food, the food will be confiscated and disposed of accordingly. If the value of the food is less than \$20, the inmate will be issued a minor misconduct report. The minor misconduct report will be for disobedience of an Order III and will include the cost of all food items that have to be disposed of due to the theft/attempted theft or misuse. If the value of the food is \$20 or more, the inmate will receive a major misconduct order for Contraband II and will also be charged for the cost of food that has to be disposed of.
2. If the inmate stealing the food is assigned to the Kitchen or Dining Room, they will receive a program failure along with the Misconduct Report.
3. This process will be used for foodstuffs found outside the Culinary Section (for example cell searches, etcetera) if the items can reasonably be determined to have been taken from the Foodservices.

Note: This does not prevent a staff member from issuing a misconduct report for a higher level charge (Contraband II) in the event the inmate has received a recent previous minor misconduct for the same conduct.

Reminders

This is a reminder that the only item approved to be removed from the Dining Room is one piece of uncut fruit. The practice of utilizing any container to take any other part of the meal back to your cell is to be discontinued. This is unsanitary because the temperature cannot be maintained in order to prevent bacteria from growing. Inmates continuing to do this can and will be subject to disciplinary action.

Activities

Inside/Out University of Oregon Fall Term

Restorative Justice/Instructor: Nathaline Frener

Dates: Mondays, September 25 – November 27, 2017

Education Floor

Time: 6:00 p.m. – 8:50 p.m.

Join us for a critical and engaging discussion about the principles and practices of Restorative Justice. Through course dialogues and activities we will explore the needs and roles of victims, offenders, communities, and justice systems, as well as outline the principles and values of Restorative Justice. Assumptions about—and labels given to—all those involved will be examined. Using the Inside-Out Prison Exchange Program model, this course will include both “inside” (students inside OSP) and “outside” students (students at UO). This is a transformative learning experience that emphasizes collaboration and dialogue, while inviting students to address crime, justice, and other issues of social concern. Adults in Custody must be NCI level 3 and have no sex offense convictions. If you are interested and qualify, send an inmate communication to: Inside/Out, Activities.
