

Administration

The Oregon Way

"We are excited to share with you an upcoming policy change that supports *The Oregon Way*. We have a long-standing policy to continue to use your court name as the official name of record regardless of whether that was your legal name at the time you entered our custody, or if you legally changed your name while in our custody. We are happy to share that this policy is changing. As of February 1, 2020, we will be allowing changes to the established court name *if*:

- a) You submit legal documentation (for example court order, marriage certificate, birth certificate) as proof of a legal name change or error in your legal name; and
- b) If the new name is "materially different" than the established court name, we will then update your official name of record in our system to reflect this change, along with your ID, medical files, trust account, communication system account, etcetera. ("Material" differences are *significantly* different, and would not apply if a person wanted to make more minor changes to the court name, such as from "Dan" to "Daniel".)

If you would like your name updated and meet the above criteria, please submit the appropriate documentation to OISC via your local institution records office or send it directly to:

OISC Central Unit
24499 SW Grahams Ferry Rd
Wilsonville, OR 97070

Please be patient as we review the documentation and process your request. You will be notified once it is complete.

Also, please know an automation change has been requested so the printed face sheet will display the newly recognized name in the "court/legal name" field and the former name as an alternate court name. Until then, the face sheet will display the new name in the court name field. We will notify everyone once that automation change has been completed.

/s/ J. Breyman, Population Management

Miscellaneous

Complete an Advance Directive

It is important for family members and health care providers to know what kind of medical care a patient wants at the end of life. Advance directives are legal documents that record the patient's wishes for end-of-life care.

Advance directives should be filled out while people are healthy, because doing so gives you time to think about the end-of-life care that you would choose if you were unable to communicate your own wishes. It also allows time to discuss these wishes with loved ones. Everyone has the right to make decisions about their own treatment. Filling out advance directives gives you a way to do so. Choices about end-of-life care can be difficult to make even when you are healthy, but if you are already seriously ill such decisions can seem overwhelming.

If you would like more information on completing an Advanced Directive, please send an inmate communication to Sick Call. We will send you a handout to help you better understand the process and what it means to you.

To obtain Advance Directive forms, please send an inmate communication to Medical Services. Legal Library can also provide assistance, you can schedule an appointment for Legal Library to witness your forms.

Beat the FLU 2019-2020

SB488 mandates that all AIC within ODOC sign a consent indicating if they would like their flu shot or not. This means you will be offered the shot and need to accept or decline.

Why get YOUR flu shot?

- ◆ It decreases the chance of you getting flu and flu-related complications!
- ◆ It decreases your chance of getting FUTURE flu due to your immune systems 'memory' of the vaccine!

Beat the FLU 2019-2020 (cont.)

◆ It decreases the chance you will give the flu to someone you care about!

Look for YOUR chance to manage YOUR health soon! Flu vaccine programs will begin in most institutions 10/1/19 and YOUR part will be needed to succeed to ***Beat the flu in 2019-2020!***
