OREGON STATE PENITENTIARY SALEM OREGON

CORRECTIONAL REHABILITATION

OSP Visiting Book Program

The Oregon State Penitentiary (OSP) has been blessed with donated books through a book drive headed by Judge Trish Brown and shared with us through our partners at Coffee Creek Correctional Facility.

These books are located in the Visiting Room and categorized by age group – toddlers, elementary, middle school and high school. We hope you select a book that you can read and enjoy together with your child. At the end of visiting, the child may take the book home with them to continue reading. Selected books can unfortunately not be stored for later visits. Children are not required to take the books home but know it may not be there the next time.

This was a one-time gift to our OSP families and once the books are gone, they will not be replaced. Please be mindful of this and select only one book per child so that we are able to create a world of great readers. Prior to books exiting the Visiting Room, they will need to be reviewed by the Visiting Staff.

Visiting Points:

Effective September 22, 2022, OSP will not deduct visiting points for children ages 17 and under. This is a pilot program that will run through November 1, 2022.

HEALTH SERVICES

Cold and Flu Season is Coming: Washing Your Hands is Your Defense!

"I don't have to wash my hands; they aren't dirty." Hmmm. Actually, unless you are a surgeon freshly scrubbed and ready to operate, they are and you just can't see the germs.

Let's talk about bacteria and viruses, which are the germs that make us sick. Germs are so small the only way to see them is through a microscope, which is why we can't just look at our hands to tell if they are clean. Germs hang out in all sorts of places like door knobs, telephones, on pens and pencils, hand railings, keyboards, and remote controls to name a few; so, it is a good habit to wash your hands after you've been touching those things, especially before you prepare or eat food.

The best way to clean the germs off of hands is to wash them with warm water and soap and yes, the water and soap at OSP are perfect. The best way to dry your clean hands is with a clean towel or airing them dry, so your pant legs or shirt front do not count. The last thing

to do in order to effectively wash your hands after you get them wet is to rub soap all over them and keep rubbing and scrubbing for 20 seconds. Unless you have a timer handy, singing the Alphabet song or Twinkle, Twinkle Little Star twice just happens to be around 20 seconds! I'll let you decide whether you sing to yourself or out loud, though.

Now you know that we have the two things needed for effective hand washing: clean water and soap. No excuses. Wash those hands and help keep yourself and others healthy.

All facts in this article obtained from Center for Disease Control and Prevention (CDC) website: <https://www.cdc.gov/handwashing.html>

Get your COVID Vaccination and Booster

COVID vaccines are safe and effective.

The Food & Drug Administration (FDA) requires rigorous safety testing before it will authorize any vaccine for emergency use. The COVID-19 vaccines ODOC offers from Moderna and Johnson & Johnson were tested in tens of thousands of study participants and generated enough data to convince the FDA that the vaccines were safe and effective.

Mass vaccination will help slow the spread of COVID-19.

Safe and effective vaccines are the key to achieving community immunity from COVID-19 and returning to normal life as soon as possible.

The COVID-19 vaccine is free.

The vaccines will be provided at no cost to you.

Please send an AIC Communication Form to OSP Medical Services ATTN "VACC" to request your COVID Vaccination or Booster.

Thank you for helping keep our OSP Community Healthy.
