## AIC Spotlight: TRCI's Metal Shop

From left to right: Thomas Urvina, Jarrod Pardun, Toby Cox, Kevin Luna-Gonzales, James Jones, John Mahone, Douglas Burkardt (not pictured)

TRCI's metal shop is an especially unique workplace here at TRCI. The shop is home to 7 AIC's who have been fortunate enough to earn one of the coveted spots preparing them for welding careers beyond prison. The metal shop serves our institution in a wide range of projects along with outside work seen in local communities. The AIC's consist of a diverse group of individuals who are eager to learn a trade and fine tune their abilities, working toward their future. The most common institutional projects include; benches, fences, tables, kitchen equipment, carts, cages in SEG, cage in band room, etc. As well as special projects for departments within the institution. Recreation is extremely grateful for the recent industrial audio/video carts that have become paramount to their daily operations. Beyond institutional work, the team has dedicated individuals who work on projects for the outside, such as gates, signs, fire pits, stoves, minions (pictured above). The shop also offers an opportunity for creative expression that showcases the artistic side of welding.

Mr. Smith (licensed welder), has been the shop coordinator for 12 years and holds an extensive background in many trades. He enjoys working with the team and providing a roadmap for their future. He mentioned the structural welding program, which is currently offered to 3 AIC's and lasts roughly 18 months. Past AIC's who have completed the program are now gainfully employed welders, working for reputable companies upon their release. The structural welding certificate includes minimal written tests and mostly project based testing such as shielded metal arc welding, tig & mig welding, flux core, and the ability to read and follow prints. Potential careers in metal work includes iron work, heavy equipment manufacturing, metal fabrication, shipyards, CNC operators, etc. Mr. Smith would love to see an investment in new equipment (similar to the CNC plasma table) to meet the standards of outside operations, but they still complete jobs and train AIC's to the best of their ability. One of the current program participants, Jarrod Pardun, shared the analogy of welding to a haircut. "You can always fix a mistake, it just won't look as messed up as before." This shop is one of the few trades that our institution offers applicable work experience and certificates for. These guys are all seeking to advance their life while incarcerated and are very appreciative for this opportunity. The institution is also very thankful for their hard work and choice to work in TRCI's metal shop.

# May is National Physical Fitness Month

According to the CDC Physical Activity Guidelines for Americans, each week adults need:

- Moderate-intensity aerobic activity for 150 minutes every week (for example, 30 minutes a day, 5 days a week)

AND

- Muscle-strengthening activities on 2 or more days a week that work all major muscle groups (legs, hips, back, abdomen, chest, shoulders, and arms)

**Aerobic activity** or “cardio” gets you breathing harder and your heart beating faster. From pushing a lawn mower, to taking a dance class – these types of activities and more count as aerobic. As long as you’re doing physical activities at a moderate- or vigorous-intensity, they count toward meeting the aerobic guideline.

**Intensity** is how hard your body is working during a physical activity.

**Moderate-intensity aerobic physical activity** means you’re working hard enough to raise your heart rate and break a sweat. One way to tell if it’s a moderate-intensity aerobic activity is that you’ll be able to talk, but not sing the words to your favorite song. Here are some examples of activities that require moderate effort:

- Walking fast or hiking
- Riding a bike
- Pushing a lawn mower

**Vigorous-intensity aerobic activity** means you’re breathing hard and fast, and your [heart rate](#) has gone up quite a bit. Use the Talk Test for the intensity of your aerobic physical activity. If you’re being active at a vigorous level, you won’t be able to say more than a few words without pausing for a breath. Here are some examples of activities that require vigorous effort:

- Running
- Swimming laps
- Playing basketball

## **Build Up Over Time**

If you want to do more vigorous-level activities, slowly replace those that take moderate effort like fast walking with more vigorous activities like running. You can do moderate- or vigorous-intensity aerobic activity, or a mix of the two, each week.

If you haven’t been very active lately, however, increase your physical activity slowly. If you have a history of a chronic disease, consider telling your doctor you are planning to increase your physical activity, including moving to more vigorous activity. You need to feel comfortable doing moderate-intensity activities before you move on to more vigorous ones.

## **Muscle-strengthening Activities**

Physical activities to strengthen your muscles are recommended at least 2 days a week. Activities should work all the major muscle groups of your body—legs, hips, back, chest, abdomen, shoulders, and arms. Muscle-strengthening activities should be done in addition to your aerobic activity.

To gain health benefits, you need to do muscle-strengthening activities to the point where it’s hard for you to do another repetition without help. A **repetition** is one complete movement of an activity, like lifting a weight or doing a sit-up. Try to do 8-12 repetitions per activity, which counts as 1 **set**. Try to do at least 1 set of muscle-strengthening activities. To gain even more benefits, do 2 or 3 sets.

You can do activities that strengthen your muscles on the same or different days that you do aerobic activity—whatever works best for you. There are many ways you can strengthen your muscles, whether it’s at home or the gym. You may want to try the following:

- Lifting weights
- Working with resistance bands
- Doing exercises that use your body weight for resistance (e.g., push-ups, sit-ups)
- Heavy gardening or landscaping (e.g., digging, shoveling)
- Some form of yoga

## April 10<sup>th</sup>, 2023

The Paradigm Shift Club hosted TRCI's first prison wide Chess tournament in recent memory. The event culminated with an individual winner from each housing unit participating in the final event at TRCI's visiting room on April 10<sup>th</sup>, 2023. This was the inaugural PSC event to include all housing units in a game tournament instead of only incentive housing units. The club is striving to serve all incentive levels with games and activities to foster an inclusive culture. The group of AIC's who attended the Chess tournament were amicable and appreciative for the opportunity to play against one another. They shared popcorn, soda, and personal strategy/playing styles while waiting for their next match. Each game was met with focus and intensity from all participants. The winner, Joshua Bunn, is an avid Chess player who enjoyed the opportunity to play against new talent. The final game, seen below right, was evenly matched and challenging. The two final winners showed great respect and admiration for each other's game. Both final winners received unique hygiene products that aren't sold on the institution's canteen. The event was a success and well-regarded by all.

## **Change in Library Call Out Code:**

In an effort to we fully schedule law library resources, such as computers, Law Library is changing how we enter call outs. For call outs entered on or after May 1, 2023, all call outs for legal appointments (with the exception of attorney calls) will now have a Section code of “LAW1” if you are to report to the Westside Legal Library or “LAW2” if you are to report to the Eastside Legal Library.

The Location code will indicate what your law library appointment is for. Below is a list of location abbreviations and their meanings:

<b>Abbreviation in Location Field</b>	<b>Meaning of Abbreviation</b>
DR	Desk Research
TC	Research/Word Processing
LA	Legal Assistant
MO	Mail Out
N	Notary
F	Forms
A/V	Review CDs of discovery
C	Copies
Box	Legal Boxes
MISC	Miscellaneous
MU	Make Up (will have service scheduled following. For example: MU, MO, C)

### **\*\*Legal Library Closure - Week of May 2<sup>nd</sup> to May 5<sup>th</sup>\*\***

Legal libraries will be closed across the state for all-staff training during the first week of May. Annual training allows us to keep Library Coordinators up-to-date and increase the quality of services provided within institutions and to AICs. We appreciate your understanding and look forward to resuming regular services after this event.

Please plan to make law library requests around these closures. If you have a deadline during this time, please plan to have all work completed prior as we will be unable to provide services during our planned closure.

**TRCI Libraries will be closed starting the afternoon of Tuesday, May 2<sup>nd</sup> through Friday, May 5<sup>th</sup>.** During these days, no attorney calls will be scheduled.

Library access will be given to AICs with deadlines during Monday’s sessions and the Tuesday morning session.

# Paradigm Shift Club Injustice 2 Tournament

## March 28<sup>th</sup>, 2023

TRCI's incentive unit PS4 video game tournaments have been a huge hit! The PSC hosted their second video game tournament this year (first was Madden 23), but received significantly more interest in this Injustice 2 tournament than the previous Madden 23 event. An initial bracket is generated for each incentive unit where AIC's play their on-unit tournament to determine an overall unit winner. The winner from each incentive unit then qualifies for the final event against all 8 incentive housing units including TRCI Minimum. The video game tournaments are popular amongst the population because it reminds many AIC's of their life before prison as many are lifelong gamers. Gaming has become a pastime and favorite activity within prison as well. The game tournaments offer AIC's a platform to compete and put their skills on display for the institution. The final Injustice Tournament was won by Alexander Tanguy who never lost a match on his road to the championship. He actually played this video game prior to his incarceration so he may have had a leg up on the competition. The final game was played on a 130 in. projector with excellent sound and video. The top two winners received Tervis insulated mugs with their choice of a Marvel or DC superhero logo on the front. The PSC hopes to offer more video game tournaments in the future and continue the trend of supporting healthy and positive activities.

## HAZARDOUS MEDICINE

Health Services would like to inform you of changes we are making to the way we provide certain medicine.

Some medicines need special handling because they can harm the person giving them. These are called “hazardous medicines.”

Studies have found that healthcare staff who are exposed to these medicines can have side effects from them.

Healthcare staff can protect themselves by wearing protective garments when handling these medicines.

Photo by Raimond Klavins, Unsplash

## WHAT TO EXPECT

You may see healthcare staff wearing gloves, gowns, or face masks. This is to help limit their contact with hazardous medicines.

Some staff may wear more protective garments than others. This could be due to the type of medicine they are handling or how they are giving it. Not all hazardous medications carry the same risk. It could also just be their personal preference!

If you are taking a hazardous medicine, you will no longer be able to keep it in your cell. This is to help limit exposure to others, not because you have done anything wrong.

## Q: IS IT SAFE FOR ME TO TAKE A HAZARDOUS MEDICINE?

**A:** People take a hazardous medicine when there are more benefits from the medicine than there are risks. One example of a hazardous medication is chemotherapy. Chemotherapy is a medicine that is strong enough to kill cancer cells. It can save the life of a person who has cancer. But, because it is so strong, it can also hurt healthcare staff who handle it. By wearing protective garments, staff can make sure they are healthy enough to keep caring for their patients!

Please talk to your doctor or send a kyte to the pharmacy if you have more questions about hazardous medicine.

### **COVID-19 Vaccine and Booster Dose Update – April 2023**

The COVID-19 virus is still present in our institutions and communities, and vaccines continue to be the safest and most effective way to protect from COVID-19 infection. The Food and Drug Administration (FDA) has released new guidelines on COVID-19 vaccine protocol. Health Services will be compiling a list of individuals who are eligible for a booster dose and will hold vaccination clinics for individuals who meet the criteria as established by the Food and Drug Administration.

**If you are not yet vaccinated and would like to be, please contact Health Services. If you do not wish to be vaccinated, or receive boosters, you can opt-out.**

#### **What you need to know:**

- At this stage of the pandemic, the FDA is simplifying the use of the authorized single **mRNA bivalent** COVID-19 vaccines (the monovalent mRNA vaccines are no longer being used).
- Most unvaccinated individuals may receive a single dose of a bivalent vaccine, rather than multiple doses of the original monovalent mRNA vaccines.
- Most individuals who have already received a single dose of the bivalent vaccine are not currently eligible for another dose.
- Individuals 65 years of age and older who have received a single dose of a bivalent vaccine may receive one additional dose at least four months following their initial bivalent dose.
- Most individuals with certain kinds of immunocompromise who have received a bivalent COVID-19 vaccine may receive a single additional dose of a bivalent COVID-19 vaccine at least 2 months following a dose of a bivalent COVID-19 vaccine.
- Health Services is compiling a list of individuals eligible for a second dose. If you have questions, please contact Health Services.

Actualización de Dosis de Refuerzo y Vacuna COVID-19: Abril de 2023

**El virus COVID-19 todavía está presente en nuestras instituciones y comunidades, y las vacunas continúan siendo la forma más segura y efectiva de protegerse de la infección por COVID-19. La Administración de Alimentos y Medicamentos (FDA) ha publicado nuevas pautas sobre el protocolo de la vacuna COVID-19. Los Servicios de Salud (Health Services) compilarán una lista de personas que son elegibles para una dosis de refuerzo y realizarán clínicas de vacunación para las personas que cumplan con los criterios establecidos por la Administración de Alimentos y Medicamentos.**

**Si aún no está vacunado y le gustaría estarlo, comuníquese con los Servicios de Salud. Si no desea ser vacunado o recibir refuerzos, puede optar por no hacerlo.**

#### **Lo que necesitas saber:**

- En esta etapa de la pandemia, la FDA está simplificando el uso de las vacunas COVID-19 bivalentes de ARNm único autorizadas (las vacunas de ARNm monovalente ya no se usan).
- La mayoría de las personas no vacunadas pueden recibir una dosis única de una vacuna bivalente, en lugar de dosis múltiples de las vacunas de ARNm monovalentes originales.
- La mayoría de las personas que ya recibieron una dosis única de la vacuna bivalente actualmente no son elegibles para otra dosis.
- Las personas mayores de 65 años que hayan recibido una dosis única de una vacuna bivalente pueden recibir una dosis adicional al menos cuatro meses después de la dosis bivalente inicial.
- La mayoría de las personas con ciertos tipos de inmunodepresión que han recibido una vacuna bivalente contra el COVID-19 pueden recibir una sola dosis adicional de una vacuna bivalente contra el COVID-19 al menos 2 meses después de una dosis de una vacuna bivalente contra el COVID-19.
- Servicios de Salud está compilando una lista de personas elegibles para una segunda dosis.

**Si tiene preguntas, comuníquese con los Servicios de Salud.**
