## COVID-19 Vaccine and Booster Dose Update – April 2023

The COVID-19 virus is still present in our institutions and communities, and vaccines continue to be the safest and most effective way to protect from COVID-19 infection. The Food and Drug Administration (FDA) has released new guidelines on COVID-19 vaccine protocol. Health Services will be compiling a list of individuals who are eligible for a booster dose and will hold vaccination clinics for individuals who meet the criteria as established by the Food and Drug Administration.

If you are not yet vaccinated and would like to be, please contact Health Services. If you do not wish to be vaccinated, or receive boosters, you can opt-out.

What you need to know:

- At this stage of the pandemic, the FDA is simplifying the use of the authorized single **mRNA bivalent** COVID-19 vaccines (the monovalent mRNA vaccines are no longer being used).
- Most unvaccinated individuals may receive a single dose of a bivalent vaccine, rather than multiple doses of the original monovalent mRNA vaccines.
- Most individuals who have already received a single dose of the bivalent vaccine are not currently eligible for another dose.
- Individuals 65 years of age and older who have received a single dose of a bivalent vaccine may receive one additional dose at least four months following their initial bivalent dose.
- Most individuals with certain kinds of immunocompromise who have received a bivalent COVID-19 vaccine may receive a single additional dose of a bivalent COVID-19 vaccine at least 2 months following a dose of a bivalent COVID-19 vaccine.
- Health Services is compiling a list of individuals eligible for a second dose.

If you have questions, please contact Health Services.

## Actualización de Dosis de Refuerzo y Vacuna COVID-19: Abril de 2023

El virus COVID-19 todavía está presente en nuestras instituciones y comunidades, y las vacunas continúan siendo la forma más segura y efectiva de protegerse de la infección por COVID-19. La Administración de Alimentos y Medicamentos (FDA) ha publicado nuevas pautas sobre el protocolo de la vacuna COVID-19. Los Servicios de Salud (Health Services) compilarán una lista de personas que son elegibles para una dosis de refuerzo y realizarán clínicas de vacunación para las personas que cumplan con los criterios establecidos por la Administración de Alimentos y Medicamentos.

Si aún no está vacunado y le gustaría estarlo, comuníquese con los Servicios de Salud. Si no desea ser vacunado o recibir refuerzos, puede optar por no hacerlo.

Lo que necesitas saber:

- En esta etapa de la pandemia, la FDA está simplificando el uso de las vacunas COVID-19 bivalentes de ARNm único autorizadas (las vacunas de ARNm monovalente ya no se usan).
- La mayoría de las personas no vacunadas pueden recibir una dosis única de una vacuna bivalente, en lugar de dosis múltiples de las vacunas de ARNm monovalentes originales.
- La mayoría de las personas que ya recibieron una dosis única de la vacuna bivalente actualmente no son elegibles para otra dosis.
- Las personas mayores de 65 años que hayan recibido una dosis única de una vacuna bivalente pueden recibir una dosis adicional al menos cuatro meses después de la dosis bivalente inicial.
- La mayoría de las personas con ciertos tipos de inmunodepresión que han recibido una vacuna bivalente contra el COVID-19 pueden recibir una sola dosis adicional de una vacuna bivalente contra el COVID-19 al menos 2 meses después de una dosis de una vacuna bivalente contra el COVID-19.
- Servicios de Salud está compilando una lista de personas elegibles para una segunda dosis.

Si tiene preguntas, comuníquese con los Servicios de Salud.
