Department of Corrections Commissary

TO: Adults in Custody
FROM: Anita Jorajuria, Distribution Services Statewide Operations Manager
SUBJECT: Commissary News, Updates and Reminders

NEWS: Due to rising cost of goods, our vendors have increased prices on some of the products we carry in commissary. The new prices go into effect on September 23, 2023. We apologize for the short notice. We are updating the commissary order forms as quickly as possible.

ATTENTION

DOC Visiting Application must be completed, submitted, and approved prior to visiting the institution

Visitors may use the following methods to submit Visiting Applications:

Email: DOC.Visitors@doc.oregon.gov / Fax: (503) 373-1173 / Mail: Visiting Services Unit, 3723 Fairview Industrial Dr SE, STE 200, Salem, OR 97302 / For additional information visit www.oregon.gov/doc/visiting/pages/become-a-visitor

PLEASE NOTE: An approved ICsolutions account is NOT considered as an approved Visiting Application.

These two processes are completely different (*this applies to all adults and minors*).

GET YOUR FLU SHOT!

The Centers for Disease Control and Prevention (CDC) recommend everyone 6 months and older get vaccinated every flu season. It takes about 2 weeks for protection to develop after vaccination. There are many flu viruses, and they are always changing. Each year a new flu vaccine is made to protect against the influenza viruses believed to likely cause disease in the upcoming flu season. Even when the vaccine doesn't exactly match these viruses, it may still provide some protection. The influenza vaccines does not cause flu. An influenza vaccine may be given at the same time as other vaccines. People with minor illnesses, such as a cold, may be vaccinated. People who are moderately or severely ill should usually wait until they recover before getting an influenza vaccine. Soreness, redness, and swelling where the shot is given; and fever, muscle aches, and headaches can happen after influenza vaccination. **If you have any questions regarding flu vaccination, please kyte Health Services for additional information**

¡VACÚNESE CONTRA LA INFLUENZA!

Los Centros para el Control y la Prevención de Enfermedades (CDC, por sus siglas en inglés) recomiendan que todas las personas de 6 años de edad y mayores se vacunen cada temporada de influenza. La protección tarda en desarrollarse alrededor de 2 semanas después de la vacunación. Hay muchos virus de influenza y siempre están cambiando. Cada año se produce una nueva vacuna en contra de los virus de la influenza que se cree son los probables de causar la enfermedad en la siguiente temporada de influenza. Incluso si la vacuna no coincide exactamente con estos virus, esta sí puede ofrecer cierta protección. Las vacunas en contra de la influenza no causan la gripe. Una vacuna contra la influenza puede administrarse al mismo tiempo que otras vacunas. Las personas con enfermedades menores, como un resfriado, pueden vacunarse. Las personas que están moderada o severamente enfermas normalmente deben esperar hasta su recuperación antes de vacunarse contra la influenza. Dolor, enrojecimiento e inflamación en el sitio en el que se puso la vacuna; y fiebre, dolores musculares y de cabeza pueden presentarse después de la vacuna contra la influenza. **Si tiene alguna pregunta sobre su vacuna contra la influenza, por favor contacte por escrito (kyte) a los Servicios de Salud, para obtener información adicional.**
