ELECTRONIC HEALTH RECORDS

TO: All Adults in Custody FROM: Health Services DATE: 3/1/24

This month, we would like to share information about how your health information will be transferred to the new Electronic Health Records (EHR). An EHR is like a big computer file that stores all your health information in one place. A "scanner" is a copy machine that turns a paper document into an electronic file that is safely and securely stored. Electronic records are easily shared between your doctors, nurses, behavioral health, and dentists at the Oregon Department of Corrections (DOC) and can be accessed at the same time. This will help them work together, and with you, to make important decisions about your health. Your electronic health records can also be shared with your health providers outside of the DOC, such as an out-of-facility appointment, or upon your release.

Right now, paper medical records are stored in a blue medical chart. But soon, when you visit your DOC healthcare providers, you may start seeing both a blue medical chart and a new green medical chart. The blue chart holds the old paper records that have been scanned in preparation for the EHR, and the green chart contains any new paper records created until the EHR goes live. Eventually, all the paper records will also get scanned and loaded into the EHR.

Please remember that right now, you do not need to do anything different to request to be seen by Health Services. As this exciting project keeps moving forward, please know we will give you more updates through AIC newsletters and flyers.

EXPEDIENTES ELECTRÓNICOS DE SALUD

PARA: Todos los adultos bajo custodia DE: Servicios de salud ASUNTO: FECHA: 1 de marzo de 2024

Este mes nos gustaría compartir información sobre la forma en que su información de salud será transferida a los nuevos Expedientes Electrónicos de Salud (EHR, por sus siglas en inglés). Un EHR es como un gran archivo de computadora que almacena toda su información de salud en un solo lugar. Un "escáner" es una máquina copiadora que convierte un documento en papel en un archivo electrónico que se almacena de forma segura y confiable. Los expedientes electrónicos se comparten fácilmente entre los doctores, enfermeros, especialistas de salud del comportamiento y dentistas en el Departamento Correccional de Oregon (DOC, por sus siglas en inglés) y se puede acceder a ellos al mismo tiempo. Esto les ayudará a trabajar juntos y, con usted, para tomar importantes decisiones para su salud. Sus expedientes electrónicos de salud también se pueden compartir con sus proveedores de servicios de salud fuera del DOC, como en una cita fuera del centro, o cuando se le libere.

Justo ahora, sus expedientes médicos en papel se almacenan en una carpeta médica azul. Pero pronto, cuando visite a sus proveedores de servicios de salud del DOC, podrá empezar a ver tanto la carpeta médica azul como una nueva carpeta médica verde. La carpeta azul tiene los expedientes en papel que se han escaneado en preparación para el EHR, y la carpeta verde contiene cualquier expediente en papel nuevo creado hasta que el EHR se ponga en marcha. En última instancia, todos los expedientes en papel también se escanearán y se cargarán al EHR. Por favor, recuerde que ahora mismo no necesita hacer nada diferente para solicitar que le vean en Servicios de salud. Conforme este emocionante proyecto avanza, por favor, tenga en cuenta que le daremos más actualizaciones a través de los boletines de noticias y de los volantes de AIC.

COMPLEX 1 vs MINIMUM BASKETBALL: GAME 2

Game 2 between the Complex 1 Team "Unity" and the Minimum Select Team proved to be a blast for players and spectators alike with the addition of some new components such as in-game music and colorful commentary by AICs Streeter and Jones that kept the crowd entertained throughout the entire game.

Complex 1 decided on the team name "Unity" because they wanted to show everyone what great things can happen when AICs stand united for a positive cause.

The game began at a steady pace of back and forth scoring, but fourth quarter heroics from AICs Evans, Budhathoki, and Golden led to Complex 1 pulling away from Minimum resulting in victory for the Complex 1 team "Unity", forcing a Game 3 with a final score of 127-104.

As with Game 1, Game 2 had many exciting moments! Notable stats:

- AIC Evans from team Unity who led all players in scoring with 51 points.
- AIC Golden from team unity who had a Double-Double (17 pts and 16 rebounds)
- AIC Russell from Minimum Select who scored 44 points to lead his team
- AIC Marcell from Minimum Select who had 25 pts and 6 rebounds
- AIC Budhathoki who had 26 pts, and hit 5 out of 9 of his 3pt attempts
- AIC Mixon from team Unity who had a Double-Double (16pts and 11 rebounds)

AICs were all in good cheer, maintaining a cooperative and extremely positive atmosphere for players and staff to operate smoothly in, making the event a pleasure to take part in for all involved.

This event's overall goal and purpose was to build camaraderie between AICs through a competitive Sporting event, and to provide an opportunity for eligible AICs to participate in a Basketball Game against their peers from another Complex, and to provide an event or extravaganza in which those AICs can watch and cheer for their favorite player/team, while they enjoy a "Bag of Popcorn" in a safe environment. This event will also provide incentives for and encourage AICs to maintain their good conduct, so that they may be rewarded for being ambassadors within the Institution.

Finally, this Event reinforces the Humanization and Normalization initiative that SRCI has been implementing over the last several years.

SRCI Recreation Staff looks forward to deciding the winner of the 1st annual "Basketball Cup" during Game 3 on Saturday, March 9th! This game will feature a half-time show, where several AICs will be chosen to shoot half-court shots to win a prize.

The players would like to thank Rec Specialist Mike Vokral for continuing to raise the level of these events for AICs, and continuing with the Humanization and Normalization efforts being implemented here at SRCI.
